

Use of matrices

Section B provides basic information and answers to crucial questions in matrix-shape.

• **B 1 Pre-treatment of substrates and old paintwork**

How do you clean and sand the different substrates?

• **B 2 Metallic substrates – body fillers**

Which body fillers can be used for which metallic substrates?

• **B 3 Metallic substrates – undercoats**

Which primers and/or primer fillers can be used for which metallic substrates?

• **B 4 Coating of plastics – undercoats**

Which undercoat materials can be applied to which plastics?

• **B 5 Primer / primer filler / surfacer combinations**

Which primer fillers or fillers can be used over which primers?

• **B 6 Sanding of undercoats**

Which sanding techniques and pads can be used for the different undercoat materials?

• **B 7 Primer filler / surfacer / topcoat combinations**

Which topcoats can be applied to which primer fillers or fillers?

• **B 8 Hardeners / activators for undercoats**

Which hardeners or activators are needed for which undercoat materials?

• **B 9 Hardeners for topcoats / clears**

Which hardeners can be used for which topcoats or clears?

Safety advice:

The products are suitable for professional use only.

It cannot be ruled out that this product contains particles < 0.1 µm.
